Chief to restore integrity

Mayor Von Dee Cruse has expressed faith and trust by appointing me chief of police. I accept with honor and pride.

In beginning my duties as chief of police and having been a member of the department for over 25 years, I assure you that I will carry out the responsibilities associated with the office with competence.

billities associated with the office with competence. Your Police Department is comprised of 52 individual officers, some of whom are married, raising children, and are an integral part of this community. In recent months, publicity concerning the department has not only tarnished the image of many fine officers but has downgraded the morale of you Police Department, which had at one time represented itself as the finest department in the state est department in the state of Illinois.

I pledge to restore the integrity and public trust this department once enjoyed. In the coming weeks, all of my efforts and energy will be geared to restoring order within the department and re-building public confidence.

I will relentlessly pursue and investigate any case brought before me, which shows that an officer has violated any laws of this state and city. I will enforce the department rules and regulations to the fullest. All valid allegations that are corroborated with evidence will be investigated.

SPRINGFIELD — If you're still waiting for the state to give back shart it owes you, you're in good company and may not have to wait much longer.

At least 575,000 state income tax refund checks were mailed this week, said Rick Davis of the same to be supported that week, said Rick Davis of the same to be supported to the same to be supp

The governor's office alleged Comptroller Roland Burris sat on them to drive up the end-of-fiscal-year balance to bolster his position that tax hikes advocated by the governor weren't needed.

At any rate, that batch of checks has now been processed and was delivered to the post office on July 21, Davis said.

In the past two weeks, about one million more refund approv-als have come over from the Department of Revenue, he added.

He said the checks will be pro-cessed at the rate of about 75,000

a day and all of them should be mailed by mid-August.
Revenue spokeswoman Verenda Smith said refunds have now been authorized by that office or who filed by the April 15 deadline.
Davis said about 1.4 million refund checks, about half the total, were seen out carlier than the control of the

(before June 19).

Smith conceded Revenue was much speedier in processing returns and getting out refunds last year because of a priority by the former director.

The department opted this year not to spend as much money on overtime pay and temporary workers to process returns so it did take longer, she said.

At the same time, she acknowledged there was a push by the internal Revenue Service this year to get federal income tax refund checks our earlier.

"People got their federal refunds faster than ever this year and that's what they're gauging us by," she said.

The average individual state income tax refund is about \$81, she said, about the same as last year.

Because of their intransigence; the unions have steadily lost favor with the rank and file. If the unions were wise, they would attitude and broaden their appeal to modern workers with more enlightened policies. Instead, they are trying to browbeat Congress into changing labor laws to coerce more workers into union ranks.

At issue is pronosed flegiciation.

At issue is proposed legislation (H.R. 281 in the House; S 492 in the Senate) that would outlaw double-breasting, sometimes called dual shop operations. A dual shop is a company that union operations in different places. Making dual shops illegal would require a company with one union contract to extend that the company with the company of t

State cutbacks pain area

"No man is an island" and this point was hammered home force fully and painfully Monday as Gov. James Thompson outlined how he has trimmed the state budget for 1987-88.

—State Police assigned to reduce street crime in East St. Louis will be phased out.

—Scheduled Granite City school aid will be cut back by about \$800,000.

—Menard prison near Chester

sego,000.

—Menard prison near Chester won't be closed, but construction of one of the proposed new downstate Illinois prisons is being delayed indefinitely.

The financial link between municipalities and higher levels of government isn't all negative, or even mostly negative. Federal revenue-sharing enabled many facilities to be built; a good example is the Granite City Township Hall.

Fortunately, most communities

used such now-you-see-it, nowyoui-don't revenue programs for
special projects rather than
absorbing them into their regular
budgets to provide bigger staffs
or bigger salaries.
But state education grants are
basic; they are relied on to meet
half of the costs in most school

districts, not to mention the mon-etary aspect of school reforms. A series of reforms initiated with much fanfare in the mid-1980s now is endangered.

The tax squabble between the executive and legislative branches at Springfield clearly has a direct and immediate impact on every school system.

impact on every school system.

When prisons become overcrowded, Illinois judges seem to
order fewer criminals to serve
behind bars, also affecting each
community's quality of life.

"Build Illinois" infrastructure
grants may be still another addition to the ranks of endangered
species. Funding for such proposals as the Illinois 203 water line
south of Madison also is uncertain. And state-federal health
care payment levels continue to
squeeze both patients and institutions.

Even though the biennial state election is over, political differences seem to be making increasingly difficult to reach agreement on desirable taxing and spending levels. Until this has been achieved, local as well as state services will be in great-er-than-usual jeopardy.

Fact-finding, **Bolivia style**

Travel by legislators, like beauty, is in the eye of the bsholder. Or, in the eye of the individual boarding the airplane, on the one hand, or the person paying for it the taxpayer.

Are these tours merely enjoyable junkets or are they serious fact-finding missions? Perhaps most are a combination.

Journal correspondent
Mel Brooks, the king of unpollabed comedy, has struck again.
However, this time he has
almost struck out.
Brooks' latest comedy, "Spaceballs," is a rape of "Star
Wars" and offers the kind of
patented Brooks humor that you
provide the page of the page of the page
comp. In addition, the film lacks
inventiveness. The jokes and
comic situations become so boringly plain that you will be
yawning before the end of the

first reel.

As usual, there is a Jewish tilt to Brooks' humor. However, give credit where credit is due. Usually, Brooks does not single out any certain religious or ethnic group. Throughout the long history of his films, Brooks has proven to be an equal opportunity offender.

Revival of country decorating means it's drying time again

The romantic renaissance of the country look has brought with it a return of the craft of drying flowers.

In home decorating, dried flowers can re-create the gentle flowers pictures or potpourri, or on hats, wreaths, kissing balls, shadow boxes, hearth brooms, Shaker boxes, window ornaments

Many of the common annuals, such as zinnias and marigolds, are readily dried. Bedding Plants Inc. an educational-tion on flower and vegetable gardening, suggests you also look for transplants of everlasting flowers. These are the ones most often used in dried-flower craft-ings to look for include straw-flower, globe amaranth, cocks plumed), statice, baby's breath, money plant, Chinese lantern, and bells-of-Ireland. Plus, there are three with unprounceable Latin names and no common and xeranthemum. Take them home and give them names you can live with, like Harry or Florence.

The various ornamental grasses, lovein-a-mist seedpods, blue sage (and it's white-flow-ered variation), larkspur and varrow are also dried easily. All of the above flowers and plants are air dried. This merely involves cutting them when the dew is gone, tying several stems

Use sand, Iresh kitty litter, a white commeal-and-borax mixture, or, for beet results, silica gel. This sold under several different trade names at garden centers. Pick flowers in the middle of the day and cut stems ½ to 1 inch long. Fill the bottom of a flower in the day and cut stems ½ to 1 inch of the drying agent. Put in the flowers. Flat flowers like daisies or pansies are usually best placed face down. Most of the flowers with many petais las, mums and aster do better facing up. Experimenting is the only solution. Spikes of flowers like snapdragons and scarlet sage are placed horizontally. Agent until the flowers are completely covered.

The drying time varies, but

Potpourris are made by drying netals on screens or trays in a dehydrator, gas oven with a pilot light, or electric oven on the lowest setting. Rose petals make up the bulk of the mixture, with citrus peels adding additional fragrance and color. To enhance the scent, add 10 drops or so of an essential oil and 3 table-spoons of ground orris root as a material.

tant when the next three batters reached base and scored. Welhardt finally ended the tension by striking out Range.

Despite the inconsistency of the home plate umpire, Kacera thought Wiehardt created his own trouble.

"I don't think the umpire had anything to do with it," Kacera said. "No matter what he is calling, if you are around the plate you will get some calls. But Chris was all over the place tonight."

Chris was all over the place tonight."

Offensively the Optimists were creating troubles for Colinsville. In the first, Chris Nolan walked, moved to second on scored on Chris Hampsey's double. The run tied the game 1-1. In the third, Granite City managed to score three runs on one hit. Nolan walked and moved to second to the control of the colon walked and moved to the colon walked and Hampsey hit a slow grounder to third baseman Derek Norton. When Norton threw to first to get Hampsey, Nolan scored shead of the first basemans throw home. Of and Hampsey moved to second. The smart baserunning helped the Optimists as Bartling scored on a wild pitch and Hampsey scored on an error. It gave Granite City a 4-2 lead.

Grantic City a 42 lead.

The Optimists plated two more runs in the fourth. Troy Adamits singled and was sacrified to second. Nolan singled home Adamits and Lignoul followed Adamits and Lignoul followed out. Hampsey singled home Nolan but when Lignoul tried to score on the hit and didn't slide, he was ejected from the game. Grantic scored what proved to the fifth inning. "We survived and that's about it," Kacera said.

The win improved the Optimists' league record to 13-5. They are 19-6 overall. They are still in a neck-and-neck thiston title. Division champs have only to play the winner of a game between the No. 4 and No. 5 teams in its division at home to quality for the league finals Aug.

15 hould the Optimists win the division, that game would be at Varsity Field July 30, probably against either Alton or the Alton Optimists. If they finish second, they would likely face a much

stronger Belleville Quax (Belleville II) team the same date at Varsity Field.

Brighton is likely in the league's final eight-team tournament, ten-tatively scheduled for Edwards-ville's Hoppe Park.

Big Red ticket sales down

The St. Louis Football Cardinals sold 27,005 season tickets, club officials announced recently. The figure represents a decrease of 4,228 compared to the previous year and is the lowest total since the Cardinals began play at Busch Stadium in 1966.

"Although it represents a dro-poff from last year, it speaks highly of St. Louis' hard-core sports fans considering the Car-dinals' poor showing of 1986 and the controversy that has sur-rounded the stadium issue," said William V. Bidwill, the club's

chairman/preside Cmarman/president.

Here's a year-by-year breakdown of season ticket sales:
1960 — 13,997, 1961 — 12,665,
1962 — 12,273, 1963 — 11,971, 1966 —
